Problems with Borders

- May disrupt information flow & sharing
 - Speed
 - Bureaucracy
- Trust
 - (Fear) Risk of Sharing
- Consequences
 - Gaps between practice & capabilities (sectors / players. Economies
 - Isolate certain stakeholders
 - Basic security issues unresolved – recurring incidents
 - Affects success in other areas (i.e CyberCrime)

Open DNS Resolver

Top 20 Countries With Recursive DNS Servers

| Country | Total |
|---------------------------|-----------|
| China | 1,298,427 |

Stories

CERT/CSIRT Establishment Project in the Pacific

Background

- PacCERT was established 2012 & ended in 2014
 - Constituents: 22 Pacific Island Economies
 - Based in Fiji (USP) – 2 staff
- Cyber Security activities were relatively low, not institutionalized, no coordination, no governance
- Good initiatives were not linked
- Lack of resources , many challenges
- Security threats becoming reality
- Opportunity to provide assistance

Opportunity for Collaboration & Assistance

- Capacity Development
 - 2016 – workshop in Tonga
 - 2016 - Tonga CERT Established
 - 2018 – PNG CERT, Vanuatu CERT
- Collaboration with APCERT, CERT Australia, DFAT, FIRST & others
 - 3 Regional CERT/CSIRT Workshops (2018 – 2019)
 - Site visits to CERT Australia, ThaiCERT
 - APCERT & FIRST Fellowship
 - PacSON established 2018
 - FIRST Fellowship for TongaCERT
 - ShadowSever Foundation & Team Cymru providing feeds
 - FIRST TC Event Noumea
 - Open source software

CSIRT Workshop Tonga

1st Regional CSIRT Training (Tonga)

Lessons Learned

- Multi-stakeholder approach
 - Clarify
 - Complement vs Compete
- Big Picture
 - Set goals clearly & clarify
 - Start small and grow slowly
- There's no one right model
 - Context
 - Know options & adapt
 - CSIRT of the "Last Resort"
- Capacity Development
 - Learn from others
 - Support one another
 - Get Plugged-in-to the community
- Create a community

CERT Vanuatu Launch – 2018

2nd Regional CSIRT Workshop, New Caledonia

FIRST Fellowship Program

- Outreach to CERTs/CSIRTs in regions economies that are not (well) represented in the community
- Started in 2014
 - Renamed to Suguru Yamaguchi Fellowship Program
 - 13 Teams from Developing Economies
- Support newer teams
 - Participate in FIRST events
 - Support to become FIRST Member

FIRST Members around the world

CSIRT Training with AfricaCERT – 2017

Incident Handling for Policy Makers (and other stakeholder communities)

- To better understand
 - Issues and Challenges (i.e. GDPR, Trust)
 - What works and what doesn't work
 - Existing initiatives and efforts
- Hopefully
 - More frequent conversations
 - Policies that will improve & mature security practices
 - More resources for security related efforts
- Outcomes
 - Incident Handling for Policy Makers
 - Engagements at Internet Governance Forum, INTERPOL, GFCE, may other Forums

New York - 2018

Geneva - 2017

Conclusion

- Questions
 - Why is it difficult to do security?
 - What should we prioritize on?
 - What problems should be tackle first?
- Going beyond the “traditional border”
 - Strengthening everyone
 - Improving overall security
 - Solving problems
- Volunteering & Helping others
 - Mentoring
 - Open sourcing tools
 - Sharing your work & experience

Thank You!
